- 🏠 your POS agenda
- 🏠 lifestyle photos in compliance with your moodboard

Heimgard Brochure

Next generation
smart home!

Completely flexible. Completely secure.

Security and alarm system

Security is comfort.

Sleep safely and securely in a home with Heimgard's flexible and future-smart alarm system. Can be connected to 24/7 alarm central. The system also supports everything from lighting and heating to camera surveillance and energy control.

Use the app to keep an eye on your home. Turn on the outer security. Activate the frost protection. Does the roof of your cabin need snow shoveling? Did you remember to lock the door? Or blow out the candle in the living room? Is the dog doing ok at home alone? Sit back, relax. You are in control.

Indoor Cameras

Practical and discreet for use at home. Movement sensor and notification. Video recording on-demand. Night vision. It can all be controlled through the app.

Outdoor Cameras

Keep an eye on your driveway, garage, shed and garden. Movement sensors with notification. Video recording on-demand. Night vision. All of this can be monitored through the app.

Optical Smoke Detectors

Protects you and your home. Runs on battery. Notifies with a powerful siren and through the app.

Water Leak Detectors

Notifies you automatically if there is a water leakage. Runs on battery. Sends push notifications through the app if water is detected.

PS! Receive notifications on your phone. Your phone will alert you if the system detects smoke, uninvited guests, leakages and much more.
